

## CLASSROOM DOJO

We are happy to be able to say that our whole school uses Classroom Dojo to communicate with families. This app allows you to be up to date with all school related news and events, as well as, real time learning in your child's classroom. We love to post photos and videos of the learning going on at Green!

If you have a computer or smart phone, we ask that you join our group! If you need an invitation, please let your child's teacher know!

Another great feature of Dojo is the messaging component.

Please keep in mind a few ideas when messaging staff-

We ask that any communication about absences or dismissal still be called into the office. Messages may not be seen during classroom instructional time.

Understand that we are busy with students all day long. Please do not expect an instant response to your Dojo message, but know that staff will respond as soon as possible.

Please be respectful of staff in their off hours, especially in the evening and on weekends. They also have family obligations outside of school hours.

## VOLUNTEERS

Parent volunteers are always welcome! To work with students you must be board approved with a valid background check. If you would like to help with PTO activities, fundraisers, etc, you do not need board clearance.
