Making School a Priority:

School is the most important activity for young people. We all must encourage, nurture, and provide our young people with a positive attitude about school. Please try to schedule all appointments, family visits, etc. outside of school time. Going to bed at a set time each night, a set homework time, discussion about the school day are all ways to show you are interested and care about your child's school life. School isn't always easy and can be a challenge for many students, but by supporting them and asking about their school day it shows you care and are interested in their daily life. Remember, students spend the majority of their waking day at school and it is what they are most interested in talking about with their parents.

Achievement Testing:

Achievement tests grades 3-5 will begin the week of April 30th. Please talk with your children about doing their best and taking the test seriously. Please make sure your child:

- **Is punctual to school each day this week**
- **Goes to bed at a reasonable time**
- **Follows their normal routine**
- **Eats a balanced breakfast, lunch, and dinner**

Appreciation Week: Week of April 15th – 21st.

Thank you to all our supportive volunteers. Without you our days would not be near as productive. Your time spent with students is invaluable and cannot be replaced. You are part of each child's life and their future. Thanks again for all you do!
